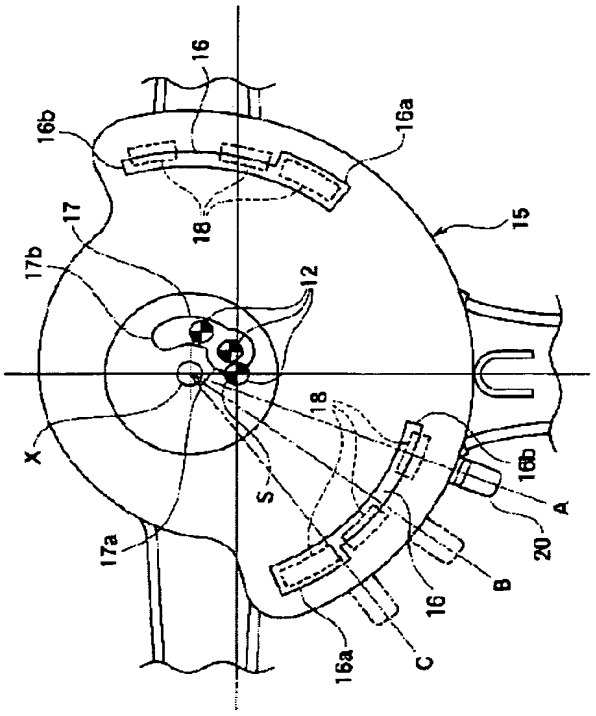
TITLE : STEERING WHEEL FOR VEHICLE



ABSTRACT : PROBLEM TO BE SOLVED: To provide a steering wheel for a vehicle to facilitate mounting work with a small number of parts.

SOLUTION: It is possible to reduce the number of the parts as it is possible to carry out mounting of a steering main body 3 against a steering shaft 2 and mounting of an air bag module 4 against the steering main body 3 by using a common part of an engagement plate 15. Additionally, as it is possible to sequentially carry out the both mounting only by rotating the engagement plate 15, and the mounting work is also facilitated.
